Hog Hollow Country Lodge is a 4-Star lodge with 15 suites and each has a private wooden deck offering guests relaxed luxury. The lodge itself is situated on the edge of a gorge & is a private nature reserve with panoramic views of the surrounding indigenous forests, valleys and mountains. Laze in the warmth of the African sun at the long blue pool, revitalise yourself in the sauna, or relax in the quiet comfort of your private suite. Children are welcome at the lodge and the staff are happy to organise special menus and meal times.

The location was formerly an alien wattle plantation in the semi wilds of a little known area of the Tsitikamma (Garden Route) known as the Craggs. The area's fynbos was rapidly disappearing as invader plants strangled the indigenous forests. Then in 1993, Andy Fermor decided to use his skills and energy to develop his dream . . . Hog Hollow Country Lodge

At Hog Hollow guests enjoy outstanding cuisine and memorable hospitality from the entire "Hog team". Each new staff member is put through a rigorous training programme to ensure they continue to meet international standards of service excellence.

Staff assist guests to plan unique day-trips encompassing everything from eco-adventure activities to a local community tour. Hog Hollow is committed to supporting its local economy through procurement and employment, and nearly all the lodge staff were recruited from the nearby village of Kurland.

Attractions nearby are diverse and include a guided or unguided walk to Monkeyland Primate Sanctuary; an experience in the forests at the Elephant Sanctuary; scuba diving or a forest journey in the Tsitsikamma Nature Reserve; horse riding, canoeing, sea-kayaking; a boat-based whale and dolphin watching experience; or a scenic glider flight around the bay.
