Situated on a particularly stunning section of South Africa's 3000 kilometre coastline in the coastal town of Plettenberg Bay, Ocean Blue Adventures offers a range of responsibly-conducted marine adventures - from boat based whale and dolphin encounters to deep sea adventures .

Through the Orca Trust, Ocean Blue Adventures is helping to conserve the rich marine resource base by undertaking research and environmental education on an ongoing basis. The company is also strongly committed to developing its staff, who own 10% of the business through a staff ownership scheme.

Ocean Blue Adventures facilitates tours to the nearby Qolweni community, enabling visitors to experience contemporary Xhosa culture alongside remarkable views of the Tsitsikamma Mountains. Community tours are operated in close cooperation with the Qolweni Community Development Trust, which ensures that local residents actually benefit from your visit.
