Shiluvvari Lakeside Lodge situated on the banks of the Luvuvhu river is the perfect site from which to explore the rich diversity of cultures, and the natural beauty of the Northern reaches of Limpopo Province.

The rich and diverse mix of local craft includes beadwork, stunning clay pottery, hand-printed local textiles, batik work and much, much more.

There are also a number of master wood carvers, sculptors and traditional drum makers situated in the area. Amongst the arts and crafts community there are several world-renowned artists including Noria Mabaso, Jackson Hlungwani and Lilian Munyai, who have showcased their talents and pieces in the Buildings of Parliament as well as the newly opened Sandton Convention Centre. These artists welcome tourists into their home villages and share their unique talents with their guests - a once in a lifetime opportunity.

Shiluvvari's cool, thatched chalets, all offer a sweeping view of the Albasini Dam and mountains. The lodge welcomes you to the heart of ancient Venda a region of sacred forests, holy lakes, and the promise to restore your natural rhythm. On site facilities include lakeside swimming pool, Wood Owl country restaurant, Hog & Hound pub and lounge, artist's shed and outdoor wraparound terrace overlooking the dam.

Shiluvvari is passionate about growing tourism in the area. Management works towards this through its partnerships with local and provincial stakeholders. One of Shiluvvari's most significant achievements in this regard has been its success, in association with the numerous artists that live in the area, in establishing the Ribolla Tourism Association which collectively markets the areas wide array of tourist attractions.

The management of Shiluvvari has worked conscientiously to build a culture of staff participation and education, and the impact of these efforts upon the personal growth and career development of staff is apparent.

Shiluvvari Lakeside Lodge - Ku dya hiku engeta - once you have tasted, you will want to return.
